

Helping Refugee Youth Access Education Bangkok, Thailand

U R B A N E D U C A T I O N P R O J E C T

Refugee youth in the Bangkok metropolitan area may lack access to education due to limited resources, language barriers and difficulties integrating into local schools. Those who drop out of school lack a safe environment during their formative years, increasing the risk of exploitation and damage to their psychosocial well-being.

The Bangkok urban education project provides language and vocational training to refugee youths. Scholarships and assistance are also provided for those enrolled in schools but cannot continue.
