

# INTRODUCING CAHAYA MASA DEPAN

## WHO ARE WE?

CAHAYA MASA DEPAN, which can be translated as light of the future, is a charity created by Harold in 2017.

## WHAT DO WE DO?

Our original mission is to support the education of underprivileged students in Riau Island, Indonesia.

Over the past 4 years we have supported 10 students from 15 to 23 years old.

We believe that getting a degree will not only help the children get out of poverty but will also give them the necessary background to support their communities.

Indonesia is greatly affected by the Covid pandemic. A lot of families lost their source of income and are struggling to make ends meet.

We've decided to extend our activities and provide "Covid Relief Packages" made of staple food rations, masks and hand sanitizers to hundreds of families for couple of months.

## WHAT'S NEXT?

We would like to extend our support to more students and continue to distribute Covid Relief Packages.

Once the situation stabilizes we are planning on organizing free health check up missions to underprivileged villages.

We would bring a team of healthcare professionals (GP, pharmacists, dentists) to remote communities in order to provide consultations, medicines and health advices.

# STUDENT'S UPDATE

## CAHAYA MASA DEPAN

### STUDENTS

**Eken** is in his final year of senior High School and trying to plan what he would like to do next! On his free time he likes to play the guitar and to fish.

**Philipus** is studying to be a naval engineer. As a real geek, he loves reading and watching movies!

**Aurelia** is in her second year of junior High School and working hard to maintain good grades in order to enter the convent.

**Agus** is in his final year of Business School! He is passionned about photography and is an avid volley ball player.

**Paulus** has 2 semesters left in his nursing degree! He is our right hand in Indonesia helping us to better support our students. Last year he volunteered to distribute our Covid Relief Packages.

**"I hope that the charity will light the future for underprivileged children so that they can go to school and finish school like me and my friends"** -Ari

**Simon** just finished his first year in seminary and is a real book worm.

**Ruben** just graduated senior High School and his working in a restaurant while waiting for his university applications status.

**"The really meaningful life is a life that brings meaning to the others"**  
-Philipus

### ALUMNI

**Ari** graduated from senior high school in tourism. He now works in a hotel in Lake Toba

**Hendrikus** is working as a Nurse at a Hospital in Batam. He was part of the team who distributed the Covid Relief Packages.

**Berti** graduated from senior high school as an electrician, and is thinking about enrolling in further studies.

**Many thanks to our donors for supporting our proteges**
