# Testimonies of Reverse Carolling 2019

This reverse carolling has allowed me to look at life from a whole new perspective. Being a channel of God's love and bringing the light of Jesus to the families that I visited during this outreach have allowed me to walk in the footsteps of Jesus just as how He was with his people. I am truly honoured and blessed to have had this opportunity to experience and serve those whom I encountered.

Desiree Laban, Sabah

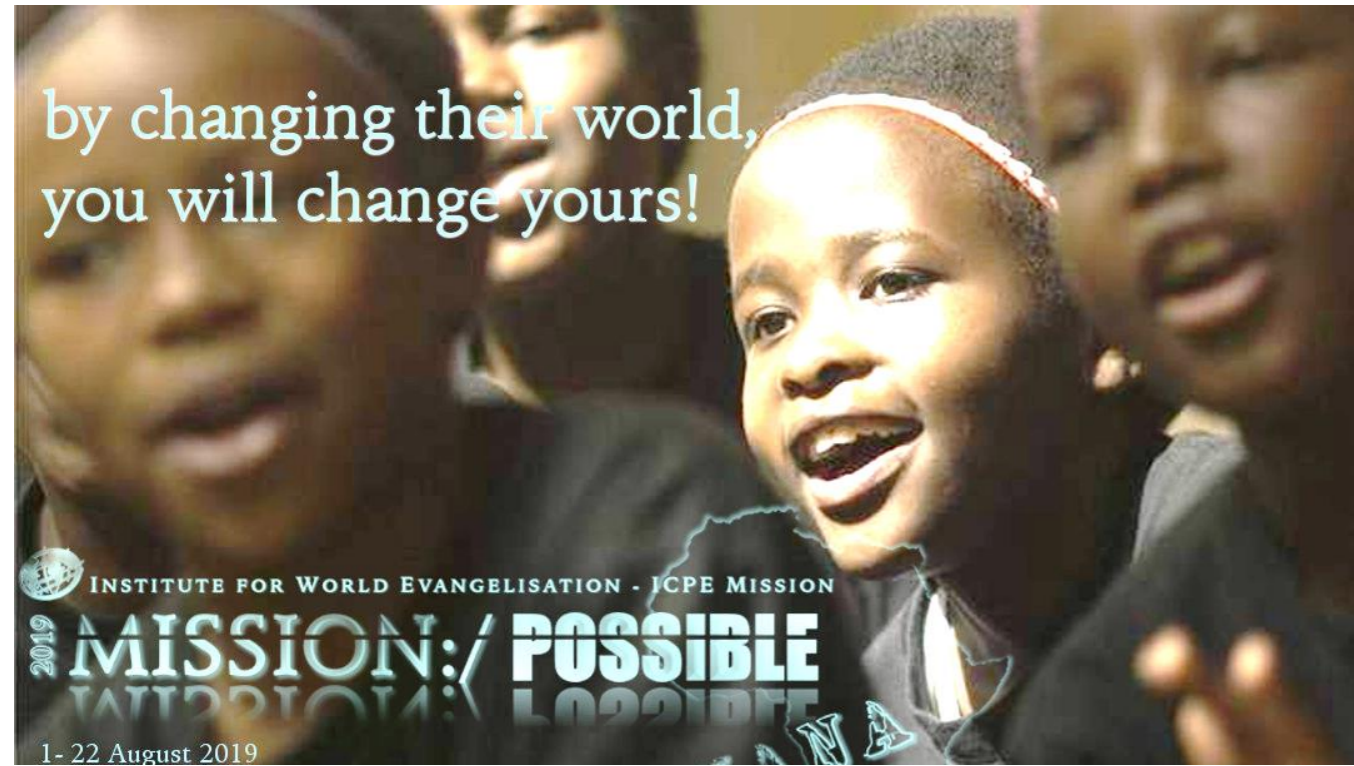

God has truly blessed and astounded me on this mission trip. He has shown me His love and providence. He has been very faithful to me and has fulfilled His promises to me throughout my time on mission. I felt very privileged and humbled to be able to be able to share Christ's love and joy to the many amazing people I met. The witness of the resilience and hopefulness in the Filipino people there really spoke to me about the faith and joy that Christ calls me to live with in my own life.
